**Question 9**

This Application qualifies for streamlined processing pursuant to Section 63.12(c)(1)(ii) of the Commission's Rules, 47 C.F.R. § 63.12(c)(1)(ii). Exponential-e Limited ("Exponential-e") is a new entrant in the U.K. data services market. Exponential-e has a state-of-the-art Gigabit Ethernet network around the United Kingdom that it uses to provide Internet and other data services to end-users and other carriers. As a new service provider, Exponential-e does not have more than 50% of the data market, and therefore is presumptively considered to be a non-dominant service provider pursuant to Section 63.10(a)(3) of the Commission's Rules, 47 C.F.R. § 63.10(a)(3). In addition, Exponential-e is not affiliated with a foreign carrier as that term is defined pursuant to Section 63.09(e) of the Commission's Rules, 47 C.F.R. § 63.09(e). Finally, Exponential-e has no affiliation with a dominant U.S. carrier whose international switched or private line services seeks authority to resell, and does not seek authority to provide switched basic services over private lines to a country for which the Commission has not previously authorized the provision of such services.

**Question 10**

Not applicable.

**Questions 11 & 12**

Exponential-e provides the following information and certifications as required in Section 63.18(i) through (m) of the Commission's Rules, 47 C.F.R. § 63.18(i)-(m):

- (i) Exponential-e certifies that it is a foreign carrier in the United Kingdom within the meaning of Section 63.09(d) of the Commission's Rules.
- (j) Exponential-e certifies that it seeks to provide international telecommunications services to all global points, including the United Kingdom, where Exponential-e has a state-of-the-art Gigabit Ethernet network that it uses to provide Internet and other data services to end-users and other carriers. The only exception is Exponential-e is not seeking authority to provide service to any point on the Commission's Exclusion List, which currently is only Cuba on a facilities-basis.
- (k) The United Kingdom is a Member of the World Trade Organization.
- (l) Exponential-e may resell the international switched services of unaffiliated U.S. carriers for the purpose of providing telecommunications services to the United Kingdom, where Exponential-e operates as a carrier as described above.
- (m) Exponential-e presumptively qualifies for non-dominant treatment to the United Kingdom pursuant to Section 63.10(a)(3) of the Commission's Rules, 47 C.F.R. § 63.10(a)(3).

Exponential-e is a new entrant in the U.K. data services market. As a new service provider, Exponential-e does not have more than 50% of the data market, and therefore is presumptively considered to be a non-dominant service provider.

**Question 15**

Exponential-e has not previously received authority under Section 214 of the Communications Act.
